## Hon. President's Message

Dear ACRSI Members,

Greetings from the Lucknow.

ACRSI is one of the vibrant sections of the ASI and has brought laurels to the society because of hard work & active participation of its Executives & all members. Society has organized various scientific activities in the past 2 years to enhance the surgical skills, academic knowledge of its members in the field of colon & rectal surgery & also contributed in the public educational activity. Your continuous participation, support and time to time suggestions are desirable to keep it going & improvement in the future activity.

I would like to invite all of you to actively participate in the forthcoming ACRSICON2019 to be held at Srinagar from September 19-21, 2019 to make it a grand success.

Thanking you

Best regards,

**Ashok Kumar**

## Hon. Secretary's Message

Dear friends,

Warm greetings from Mumbai. ACRSI has had a good year bagging for 2<sup>nd</sup> consecutive years the best section award from ASI HQ. This reflects the hard work put in by the entire executive committee over last 2 years and guidance from our President Dr Ashok Gupta & incoming President Dr Niranjana Agarwal. Our journal has been launched & all of you will have received the first volume. I seek all your support with submissions to grow our fledgling baby into an indexed journal with a high impact factor.

ACRSI membership data is being digitised & new membership applications can now be done seamlessly through our website. Team SKIMS led by Professor Nisar Chowdhury is gearing up for an academic feast during the ACRSICON & I would encourage all of you to register early.

Please feel free to send to the Secretariat's office your suggestions to grow our beloved association even stronger.

Warm personal regards.

**Roy Suneel Patankar**

## WELCOME MESSAGE

Dear Friends,

Colorectal Foundation is proud to host the first ever Interim meeting of ISUCRS in India. This meeting will be held in Mumbai under the aegis of ACRSI.

We all know that benign proctology forms a large chunk of a general surgeon's practice. Unfortunately the training imparted during the residency days prove inadequate to deal with this simple looking problems but having complex repercussions, if dealt inappropriately. There is always something new emerging in this field to improve upon the end results. The surgeons find it difficult to keep abreast with all the new development and is reluctant to invest upon newer costly technologies due to ignorance in terms of results and cost effectiveness. It is with this backdrop that we have decided to have an exclusive conference on this subject for the entire two and half day to deliberate extensively on common topics such as piles, fissures, fistula, pilonidal sinus and rectal prolapse.

Renowned International & National faculty will be participating in the discussions & will also be demonstrating Live surgical procedures. The aim of this meeting is to have clear take home messages for the delegates & ultimately help in improving their practice. We plan to showcase all newer technologies too and have a threadbare discussion on the same.

We have very attractive in house packages – the entire meeting will be conducted in the ambience of 5 star comfort at the financial capital of India.

We welcome you to this meeting & look forward to interacting with you this November in Mumbai.

## WELCOME MESSAGE

Dear Friends,

Colorectal Foundation is proud to host the first ever Interim meeting of ISUCRS in India. This meeting will be held in Mumbai under the aegis of ACRSI.

We all know that benign proctology forms a large chunk of a general surgeon's practice. Unfortunately the training imparted during the residency days prove inadequate to deal with this simple looking problems but having complex repercussions, if dealt inappropriately. There is always something new emerging in this field to improve upon the end results. The surgeons find it difficult to keep abreast with all the new development and is reluctant to invest upon newer costly technologies due to ignorance in terms of results and cost effectiveness. It is with this backdrop that we have decided to have an exclusive conference on this subject for the entire two and half day to deliberate extensively on common topics such as piles, fissures, fistula, pilonidal sinus and rectal prolapse.

Renowned International & National faculty will be participating in the discussions & will also be demonstrating Live surgical procedures. The aim of this meeting is to have clear take home messages for the delegates & ultimately help in improving their practice. We plan to showcase all newer technologies too and have a threadbare discussion on the same.

We have very attractive in house packages – the entire meeting will be conducted in the ambience of 5 star comfort at the financial capital of India.

We welcome you to this meeting & look forward to interacting with you this November in Mumbai.
